

# Add some words to what I say...

I'll learn to use sentences as we talk and play

## This will help me to:

- Learn to add things to language to what a child says, will help them interact with others towards using sentences. Be more confident
- Make friends at nursery and school
- Develop skills towards independence

## Helpful tips:

- Add words to what your child says e.g. if a child says "ball", you can reply with "yes, a big ball!"
- Help increase your child's vocabulary by giving them choices e.g. "Do you want an apple or a banana?"
- Join in with your child while they play. Talk about what they are doing e.g. "wow that's a fast race car!" or "dolly is going to bed" and wait for your child to respond
- Visit CYPSTL Pinterest
- Visit the Hungry Little Minds website
